**Subject:** email drafts for facilities - DRAFT DELIBERATIVE INTERNAL

Hi Ruben,

I made calls to all 7 facilities today. (Just missing the 8<sup>th</sup>, Santa Teresa which I will do next).

Two facilities asked me to send them an email that they can send forth. Would you and Fran please take a look at my draft emails before I send?

Thank you

Hello Karen,

Thank you for taking my call today. Per your request, I am emailing and copying Eric so that he has this information.

My call was to inform **Midwest Sterilization** that EPA will be conducting a community meeting in **Laredo** in the near future to inform the public of the potential health risks from ethylene oxide (EtO) emissions from the **Midwest Sterilization** facility. This is part of a EPA national rule making effort that is anticipated to require additional EtO emissions controls from your facility to reduce the potential risks.

We are offering a meeting with you in advance of the community outreach meeting to discuss potential additional EtO emission controls with you and encourage you to install them as soon as possible.

Thank you for your interest in meeting and providing some potential dates when you and your team would be available: April 11, 12, 20, 21, 22, or April 25-29

I will check the dates with our team and either I will send an invite or Neakeyla Daniels from our office will send an invite.

Thank you.

Hello Emmanuel,

Thank you for returning my call today. Per your request, I am emailing so that you can send forward to your contacts.

My call was to inform **Isomedix (Steris)** that EPA will be conducting a community meeting in **El Paso** in the near future to inform the public of the potential health risks from ethylene oxide (EtO) emissions from the **Steris** facility. This is part of a EPA national rule making effort that ~~is anticipated to~~ may require additional EtO emissions controls from your facility to reduce the potential risks.

We are offering a meeting with you in advance of the community outreach meeting to discuss potential additional EtO emission controls with you and encourage you to install them as soon as possible.

Please let me know if you would be able meet with us in the next 1-2 weeks and we will schedule with you a virtual meeting.

Thank you.
